CONFERENCE AT
SPRINGFIELD MAY
END O. E. STRIKE

Representatives of Trainmen In Ohio Called to Headquarters.

CARS MAY BE RUNNING
BEFORE DAYLIGHT SUNDAY

Stated Authoritatively Here That Men Will Confer With Officials.

Springfield, Aug. 23.—Following a conference here this afternoon between delegates of 500 striking Ohio Electric trainmen, it was announced by James Largay, international union representative, that the trainmen's representatives would meet later this afternoon with Dana Stevens, vice president of the company, in an effort to settle the strike.

For more than a week all lines in Ohio of the Ohio Electric Railway company have been tied-up through the walkout of trainmen one week ago yesterday. Efforts made, on Tuesday by mayors of Newark, Zanesville and Lima to settle the strike failed. The conference today is the first formal meeting between the officials and the men since the strike went into effect.

While it is not probable that a permanent agreement can be reached between the two factions this afternoon it is felt in some quarters that temporary settlement agreement may be reached under which the trainmen will return to work until a permanent settlement of their difficulties with the company.

There is a probability that the Ohio Electric cars may be running before daylight tomorrow morning, the day when the heavy traffic starts on account of the state fair and the crowds bound for Buckeye Lake.

J. F. Leedy of this city, president of the local branch of the Amalgamated Association of Railway Trainmen, was called to Columbus last evening to meet members of the trainmen's executive council in that city and they left for Springfield this morning where members of the council from all the localities of cities along the Ohio Electric will hold a session this afternoon.

It was stated authoritatively in this city today that a conference will be held this afternoon between the striking trainmen and the Ohio Electric officials, which it hoped will result in an adjustment of the strike and that cars may resume running within the next 12 hours.

ARREST MAN FOR
THEFT OF \$43,000

Former Express Employee at Akron Locked Up in Denver While Two Companions Are Still at Large.

Cleveland, Aug. 23.—Walter R. O'Rourke, sought for sometime by Cleveland detectives and express company operatives for participation in the theft of \$43,000 in old United States currency from an Akron express office, was arrested last night in Denver, according to dispatches from that city today. Benjamin E. Monroe, the Akron clerk of the American Railway Express company, who is sought for actually stealing the money, and a woman who is known to the government officers, are still at large and the latter agents have no immediate prospects for their apprehension.

The theft occurred June 19 and consisted of old currency taken from an express shipment consigned from Akron to Washington, D. C., by the express company, according to word from Denver, admitted to police there his part in the robbery.

Ten thousand dollars in old currency taken to be part of the loot, was found on O'Rourke, according to dispatches. He is said to have insisted that he be part of the money and the woman and before starting west from Cleveland. News of the looting of the government funds entrusted to the express company came to light for the first time August 7—almost two months after the crime.

Monroe was formerly a resident of Buffalo and had been in Akron only a few months. He had recently returned from overseas service.

Monroe's family lives in Cleveland, but he had been making his home in Toledo. O'Rourke appeared in Akron in company with the woman known by the name of Watson several weeks before the robbery. He claimed to be an automobile salesman.

CAR THIEF SHOOTS
RAIL DETECTIVE

Toledo, Aug. 23.—John Boss, a New York Central policeman, was probably fatally wounded last night near the city when a thief shot to save two companions who had been discovered in a box car. Boss is at the point of death, physicians say. The two burglars were arrested in a car of merchandise and Boss was dropped by a third man who had been stationed as a look out.

BREAD DEALERS FACE
TRIALS IN SEPTEMBER

Columbus, Aug. 23.—Early trials in the September term of court face the five individuals and four corporations indicted yesterday by the Franklin county grand jury for violating the Volstead anti-trust law by combining to maintain bread prices, according to Prosecutor Hugo Schlesinger.

Three of the men indicted, J. W. Cartz, the general manager of the Reynolds Baking company, and Sterling Donaldson of the Occident Baking company, were arrested under the indictment in Columbus and released on \$5,000 bonds. Hector T. Quigley of Springfield, a resident of the Reynolds Baking company, was arrested in his home city and released on bond. George Bollinger, general manager of the Brennenmeyer Baking company, will be arrested upon his return from Wheeling, W. Va. All will be arraigned before Judge Kinkead of the criminal court Monday.

COMMITTEE MAY
CUT OUT WHOLE
SHANTUNG GRANT

Treaty Body of Senate to Speed Up Work On Document.

MANY AMENDMENTS ARE
SUGGESTED TO SENATORS

Expert Report to Be Ready By the Last of Next Week.

Washington, Aug. 23.—By a vote of 9 to 8 the senate foreign relations committee today adopted an amendment to the peace treaty by which German rights in Shantung province, China, would go to China instead of Japan.

All the Democratic members and Senator McCumber, Republican, North Dakota, voted against the amendment.

Chairman Lodge offered the amendment under which the word "Japan" would be stricken from the Shantung sections of the treaty and the word "China" substituted.

The committee also instructed Chairman Lodge to request President Wilson to send the senate the treaty between the United States and Poland signed July 25 at Versailles, and such information as he had regarding the treaties now under negotiation with Austria, Bulgaria and Turkey.

Without taking up any other proposed amendments to the treaty with Germany the committee adjourned until Monday.

Washington, Aug. 23.—Speeding up consideration of the peace treaty in the hope of reporting it to the senate before the end of next week, the foreign relations committee today adopted a number of proposed amendments and reservations as rapidly as possible.

Except for a hearing of the Egyptian case Monday, the committee plans to work on the treaty without interruption until Friday and members on both sides predict by that time a report will be ready.

Both Republican and Democratic members predict that the committee will adopt several amendments to the body.

H. C. L. FIGHT IS
UP TO SENATE

House Passes the Lever Food Control Amendments Which Go To Upper House Next Week.

Washington, Aug. 23.—With adoption by the house of amendments extending the Lever food control act to peace times and broadening its scope to include clothing and other necessities, the next move in the fight to lower the high cost of living is up to the senate to which the measure now goes.

Adoption late yesterday of the amendments to the Lever act as reported out by the agriculture committee until Friday and members on both sides in which an unsuccessful effort was made to have the provisions extended to profiteering in house and room rents.

An amendment by Representative Strong, Republican, Kansas, to include kerosene and gasoline was rejected by a close vote and an amendment by Representative Newton, Republican, Minnesota, to make the act applicable to cotton was eliminated on a point of order by Representative Blanton, Democrat of Texas. The penalty provision which makes those found guilty of profiteering in the sale of the commodities named in the act liable to a fine of \$5,000 and imprisonment for two years was retained as recommended by the committee.

While the food control act is being considered in the senate, the house will continue with other measures designed to reduce the cost of living. The Hutchison cold storage bill, modeled on the New Jersey act to which President Wilson called attention in his recent address to congress will be reported out of committee next week and taken up on the floor of the house.

CHANCE OF A LIFETIME

Former Sheriff John A. Chilcote, real estate operator and bank director, when asked this morning whether in his judgment it is worth while to win the Victory Shaft, said:

"There never was such an opportunity to help yourself and the community you live in without costing you a cent. The winning of the Victory Shaft will advertise Newark and Licking county throughout the nation as a progressive community, and in doing this you are making the best investment in the world."

TOLEDO SELLING
FLOUR AT \$1.30

Toledo, Aug. 23.—The third municipal sale of flour at \$1.30 a sack was held here today and crowds that gathered at fire engine houses quickly absorbed a large supply. Many persons were unable to make purchases after waiting in line.

It required only from three to 15 minutes to dispose of a carload. The sale was over before fairly started and the flour was gone before many intending purchasers reached the engine houses. The city decided to sell flour at cost direct to consumers when dealers refused to sell flour and coffee at cost to help in the fight to reduce living costs.

WILL ASK GERMANS TO
RESTORE MINES SEIZED

Paris, Aug. 23.—The supreme council has decided to send two more notes to the German delegation at Versailles. The first will ask that restitutions be made to the Jugo Slav government for Constolatz mines seized by Germans during the war and exploited.

The second will ask for a message expressing the intention of the German government to hand over to the allies documents relative to damages done invaded territories, especially those arising from requisitions. The second note will make clear there can be no discussion of the treaty of peace with Germany.

MEXICANS URGE
SETTLEMENT OF
OIL QUESTIONS

Carranza Apparently Determined to Confiscate Property and U. S. Officials Are Disturbed.

Washington, Aug. 23.—Officials here are somewhat disturbed, it was learned today, by an apparent determination on the part of Carranza and his official advisors in Mexico City to confiscate the oil properties of foreigners, including Americans, in spite of the protests lodged with the Mexican government by all the nations whose nationals have investments in Mexico.

Two public declarations by Mexicans close to Carranza have expressed the presidents stand on this matter which public opinion, official and unofficial alike, have declared to be vital. Carranza has said in Mexico, as reported in the Mexico City newspapers, and transmitted to the state department, is for a prompt and direct settlement of the petroleum question, which has been declared to be the key to relations between the United States and Mexico.

Newspapers and citizens, especially those of the educated class, according to reports to the state department, urge that because of the recognized danger of intervention in Mexico at least protect foreign investments even if she cannot stop the murder of foreign citizens.

Don Carlos Dufio, the eminent Mexican economist, asserts that foreign capital is absolutely necessary to the development of Mexico at least protect foreign investments even if she cannot stop the murder of foreign citizens.

NEXT WEEK WILL
SEE FAIR WEATHER

Washington, Aug. 23.—Weather predictions for the week beginning August 25, are: Ohio valley and Tennessee, region of Great Lakes, normal temperature, generally fair, except that occasional local showers and thunderstorms are probable.

AIR HOSE BREAKS BOTH
JAWBONES ARE FRACTURED

P. J. Trickey, a Baltimore and Ohio conductor, suffered an injury to his face this morning at 4 o'clock at Glenco. He was adjusting an air hose between the cars and it broke, striking him in the face with such force that both jaw bones were broken.

He was brought to this city and taken to his home in the Avalon apartments where Dr. Postle attended him. An X-ray was taken of his face this afternoon.

KOLCHAK CRISIS
IS NEAR, REPORT
OF ENVOY SAYS

Ambassador Morris Says Lack of Allied Help Is Serious.

DECLARES ADMIRAL IS
BEST MAN TO SAVE RUSSIA

Military Men Believe Lenin's Crowd Is Making Last Desperate Effort.

Washington, Aug. 23.—Ambassador Morris, who was sent by the state department from Tokyo to Omsk, to report on conditions in Siberia, has advised the government here that the next 30 days will probably see a crisis in the affairs of the Kolchak government.

Ambassador Morris in his report, it was learned today, asserts that Admiral Kuchak has had to devote so much of the country and is endeavoring to make a determined stand on a new line more than 100 miles west of Omsk. His forces are small, numbering not more than 200,000 men, the ambassador advised, and the equipment is not adequate.

Military authorities in Paris and here, however, agree that the Bolsheviks are making their last desperate effort against the Kolchak troops and if they fail this time the Soviet government in Russia will collapse. Officers here say that the Bolsheviks have not enough men or munitions to handle the situation on more than one front at a time and this is the reason Denikin finds it a simple matter to advance to the south.

PEOPLE PREFER TO
PAY HIGH PRICES

St. Louis Dealer Tells Senate Food Committee That There Is No Food Profiteering in the Country.

Washington, Aug. 23.—People ought to be satisfied with present food prices; there isn't any profiteering in the food business, a St. Louis dealer told the senate agriculture committee yesterday at the hearing on legislation to control the packing industry.

Retailers are hard-working people eating themselves what other people use," Dunn said. "There isn't a retail food profiteer in the country."

"Everybody knows about food prices. Your wives and daughters can't be fooled into paying more," he said. "Well, do you think they are satisfied with present food prices?" asked Senator Kenyon, Republican, Iowa.

"If they are not they ought to be," Dunn told him. "The trouble is they want to pay more. They tell me they get finer cuts of meat by paying 5 cents more a pound, at certain shops. I can show you places where things like canned goods vary several cents a can in St. Louis and you find the man who charges the most, sells the most."

"They rather like high prices, then?" Senator Kenyon continued.

"They do; the working people are the worst offenders. They absolutely won't have anything but the finest and best. The only good this investigation will do is to show these people that and get the fool ideas about food out of their heads."

"The five big packers are not monopolizing anything," or robbing anybody, and needs no regulation," Dunn said.

WANT Y. W. C. A.
WOMEN AS POLICE

New York, Aug. 23.—Four members of the Young Women's Christian association have been asked to become the first police women of Czechoslovakia. This request was received today by the overseas committee of the organization from the commissioner of police at Prague. The women are wanted for social service work.

TONS OF FOOD HELD
IN EAST IS MARKETED

New York, Aug. 23.—Thousands of pounds of food stored in New York city have been released for consumption recently, after agents of the United States attorney's office had threatened the owners with jail sentences if they continued to hold the goods, it was learned today. Earl B. Barnes, assistant district attorney, declined to make public the names of dealers involved in the hoarding and profiteering but dealers who refused to release food held for higher prices would be vigorously prosecuted.

The sale of surplus army foodstuffs at city school buildings has far exceeded expectations, officials of the department of public markets said.

Mrs. Charles C. Rumsey, chairman of the sub-committee of the fair-price committee today commenced active work of organizing 50,000 women investigators in four thousand women's organizations to watch and check prices of retail dealers.

MEX. SENATORS
ACT ON CRISIS

Ask Committee On Foreign Relations to Learn Cause of Strained International Relation.

Washington, Aug. 23.—The Mexican chamber of deputies in a secret session yesterday defeated a resolution to appoint a committee to co-operate with President Carranza, the senate and the supreme court in forming a policy on international questions and particularly the petroleum question, according to dispatches reaching Washington today. The chamber also defeated another resolution for an investigation of Carranza on relations between the United States and Mexico.

The senate passed a resolution instructing the committee on foreign relations to investigate the cause and character of international crisis and to make recommendations.

The border situation continued to be the principal topic of news in the Mexican press yesterday and it was said that the German government of Coahuila, Sinaloa and Mexico, the labor unions and the federal deputies had tendered their support to Carranza.

ALLIED COMMISSION
GOES TO SILESIA

Berlin, Friday, Aug. 22.—An inter-allied mission will leave this city for Upper Silesia within 24 hours and the Polish commission which has been conferring with German government officials will return to Warsaw and make a report.

This new development was the outcome of persistent action by the Poles, who, on Wednesday interrupted negotiations with Germany, claiming the Upper Silesia situation was such that further deliberations were impossible. It was evident that this action came as a surprise to entente representatives here.

General Dupont, commander of the inter-allied commission, expressed the view that the German government had sole authority at present in Upper Silesia.

It is not expected that negotiations with the Poles will be resumed until after the inter-allied commission has reported and its findings accepted as final, until questions involved in the occupation of Upper Silesia, as well as other disputes are settled by a plebiscite. In the meantime the German government has agreed to moderate military measures now being enforced in the region and to discontinue executions.

MEXICO WILL ALLOW
ENGLISHMAN TO STAY

Washington, Aug. 23.—After having told William Cummings, the British charge d'affaires in Mexico City, that his presence in Mexico was deemed "incompatible with the state of affairs," the Mexican government today announced that of Great Britain have stood and do now stand, the Mexican foreign office is understood to have reiterated and Mr. Cummings expects to remain in the Mexican capital.

SPARTACANS AGAIN

BANDITS' TRAIL
NO LONGER "HOT"
MAY MAKE ESCAPE

U. S. Cavalry Continues the Search for Outlaws in Mountains in Mex.

CAMP IS ESTABLISHED
FOR PRIMITIVE EXPEDITION

Pursuit is delayed by Necessity of Waiting Upon Supplies.

Marfa, Texas, Aug. 23.—Pursuit of Mexican bandits by the American punitive expedition is continuing south from the point in Mexico where an American camp has been established. It was announced today. The trails are not considered "hot" however, as the bandits have reached the mountain fastnesses and it is feared have escaped.

MAY DROP BOMBS ON
CAMP OF OUTLAWS

Marfa, Tex., Aug. 23.—Two forces of troops, Carranza federals operating far to the south and American cavalry further north, today are scouring the Conchos river region of Mexico in an endeavor to clear that section of bandits who precipitated an expedition into the southern republic by capturing and holding for ransom two American army aviators. Five known dead bandits was the net result of the expedition at the beginning of the fifth day of the operations below the border.

More rapid progress in the pursuit of the outlaws was expected today, yesterday's chase having been largely delayed by despatch of supplies and forage to the American soldiers.

Major General Joseph T. Dickman, commander of the southern expedition, left last night for San Antonio after completing an inspection of the border and familiarizing himself with the details of the punitive expedition. Before leaving the general said an effort would be made to capture the \$500,000 remaining of the ransom money for the aviators, though he did not say just how this would be done.

Rumors of further bandit captures and bombing of bandit strongholds which have been circulating at times yesterday proved unfounded, but the possibility of using bombs in the chase was not discounted.

25 SOUTH AMERICAN
EDITORS COME TO U. S.

Chicago, Aug. 23.—Publishers of 25 newspapers in Central and South America today were invited to visit this country in the fall by guests of the Mississippi Valley association. The plan is to have the visitors arrive by steamship at New Orleans and then come direct to Chicago by special train, after which the other cities in the Mississippi and Ohio valleys will be visited.

WANTS SURVEY OF
PULPWOOD SUPPLY

Senator Watson Seeks to Conserve Decreasing Supply of Timber Used For Newspaper Paper.

Washington, Aug. 23.—As a step towards conserving the decreasing supply of American pulpwood used in the manufacture of newspaper paper, Senator Watson, Republican, Indiana, today introduced a resolution authorizing the secretary of the interior to make a survey and preliminary investigation of the nation's available pulpwood timber supply. The secretary also would be directed to make recommendations for pulpwood utilization. The sum of \$100,000 is asked to carry on the survey and investigation.

"Two thirds of the newspaper paper used by American newspapers," Senator Watson said, in introducing the resolution, "is imported or is manufactured from wood pulp imported from Canada. One third is made in the United States from wood grown in the United States. The former proportion is steadily increasing, the latter is steadily decreasing."

The senator told the senate that in Alaska are enough of forests, the annual growth of which would supply pulp for half of the newspaper paper used in the United States, but no pulp mills are there.

To stimulate American production he said the following governmental policy should be carried out:

An immediate and adequate governmental survey of American resources in the field of pulpwood production. The survey should include the conservation of forests in the pulp producing regions to the end that the annual increase in the forests will be increased, and that the annual growth of the forests will be increased. Development as soon as practicable of the industry in the northwest and Alaska.

The Ace of the Saddle.

The Auditorium tomorrow offers an exceptionally good program with Harry Carey as the picture feature. Carey is seen in "The Ace of the Saddle" the story being as follows:

The fact that Cheyenne Harry Henderson, a cattleman of Yucca County, Arizona, was prosperous was no fault of Loughlin, the county sheriff. Rustling Henderson's cattle became almost a nightly occurrence.

At length matters became intolerable. So Harry loped off into Pinkerton County to ask the help of Sheriff Faulkner, square dealing and straight shooting. The result of the visit was that Mister Cheyenne Harry Henderson took a sudden liking to Pinkerton County. The sheriff had a very beautiful daughter, Madeline.

One day she called attention to Harry's trusty six-shooter. "I think those things are barbarous," she said. "If you really want to please me, don't carry it." "All right, Miss," said Cheyenne, "hereafter I'm a man of peace."

Then Cheyenne did the one thing necessary to increase the hatred of Yucca county "citizens." He fenced off the Yucca County side of his water-hole. A short time later one of his men came in to the cabin, writhing. Loughlin's men had poisoned the water-hole.

The UNPARDONABLE SIN

The Sensation of the Screen is making all America sit up and take notice

Theodore Roosevelt said "The Unpardonable Sin is a very, very strong story. It teaches just the lesson our people should learn."

READ EACH WORD OF THIS--THEN SEE THE TERRIBLE CREED EXPOSED

"Let the weak beware and suffer; the end justifies the means . . . Be not considerate of your neighbor! Man is something that must be surpassed. . . . He to whom chastity is hard should be counseled against it. . . . Man should be educated for War and Woman for recreation of the Warrior. Everything else is folly!"

Thus—in his very words—does Nietzsche, the mad philosopher of Europe, spread the creed of might over right and lust over love. Women are his pawns; men a mere means to power. It is this tremendous theme that made Rupert Hughes' story, "The Unpardonable Sin," the masterpiece of the day—the one story that hammers home a wondrous truth while entertaining with its nerve-tinging adventure and heart-touching romance.

It still is running on Broadway—breaking all records day after day.

ENGLISH SOLONS SEE GRAND FLEET

Members of Parliament Taken To Thames River Anchorage To View Great Britain's Sea Fighters.

London, July 25. (By Mail).—Parliament, after five hard years devoted to the business of the empire, is again learning to play. Last week it occupied a stand along the Mall while the fighting men of the allies passed in review. This week it continued its peace celebration by visiting the fleet anchored off the mouth of the Thames at Southend. And on both occasions it cast aside the dignity and hoary customs of its ancient legislative halls, and enjoyed the novelty like a lot of school boys out for a frolic.

Monday the lords saw the ships—a comparatively small and select party which left London late and came home early. Tuesday it was the turn of the commons who cheered the best fighting ships.

The Balmoral Castle which carried the commons and their wives first circled the fleet, the "Lizette" as the voyagers affectionately termed it. Admiral Beatty's flagship the Queen Elizabeth, being especially admired. Then the Warspite which the Germans said they had sunk at Jutland, the Lion, the Tiger and a lot of other big ships came in for admiration, while the Conqueror, the Thunderer and some of the smaller fighters were greeted as old friends.

The Balmoral Castle then steamed down through the center of the fleet. On one side were the big ships; on the other the submarines, chasers and destroyers. Few sailors were in sight, but the crew of a submarine were loudly cheered as they took position on deck for a few minutes, and then went about some task set by their commander. A destroyer suddenly spouted smoke, gathered speed like an automobile and tore out to sea.

But that was all the commander showed of his fleet. There was no firing of salutes; no orderly manning of the rails. Just the ships, silent and grim, beloved by all the English people as their first line of defense.

CALIFORNIA TOWN TO HONOR HERO OF WAR

Defective Walking.

One of the defects of the modern woman is her walk. She either minces along in jerky, uneven steps or she strides in a manner that causes her to be called strong minded, which no normal woman will want. It is allowable to stride when you are across country, but there are many places where the stride does not belong. These places are when you are before the public and in society, where a stride will make one conspicuous for mannishness or awkwardness.

Throw your shoulders back, expand your chest and distribute your weight to make a correct balance. Then practice walking before a mirror. Place the ball of the foot on the floor first and do not point the toes outward to form too great an angle. Very soon you will notice that your steps are improving and pretty soon it will be second nature to walk correctly.

Do not swing your arms to an exaggerated extent when you walk. There should be a slight swinging movement to give sort of rhythm to the figure but the little backward and forward movement should never develop into a swing. Carry something in the hands, for with burdened arms there is little tendency to movement. In time you will learn to carry your arms gracefully and easily.

Another serious defect in connection with the arms, is pointing the elbows out instead of in. To be graceful the elbows must be held close to the body, and they must not be stiffened by this position. If you are stout this defect need be given special attention. It makes the body of a stout woman appear heavier. At first you may find it a difficult matter to walk with the arms held close to the sides, but remember that practice makes perfect.

Every Day Etiquette

"Would it be proper for me to call upon a new family in my neighborhood first and how long should I wait before doing so?" was the query of Barbara.

You should call upon the new neighbors as soon as they have been introduced. Such calls are usually made between the hours of 3 and 4 in the afternoon," directed her aunt.

GERMAN POINTS OUT HER ERRORS

Contrasts English Policy In South Africa With German Policy In Alsace.

Berlin, July 25. (By Mail).—"The reason why the whole world rose up against Prussia and Germany and not against England is plain to everyone who has observed the Prussian policy on Poland and the Prussian administration in Alsace," asserts Professor F. W. Foerster, of the University of Munich, writing in the Tageblatt.

"England practiced much might to be sure, but it has also given the world much freedom and justice," he added. "She succeeded in reconciling the Boers whereas we were unable in 40 years to regain the sympathies of the Alsacians who are German to the core. That speaks volumes."

"The isolation of Germany from Hague conferences is irrefutable proof in dominating circles that Germany is possessed of different mentality than the rest of the world."

He charges Germany with having erred in the change of the Versailles notes on the question of guilt and states that many one-sided accusations might have been combated more effectively if Germany had not again endeavored to defend untenable positions with rank sophistries.

SLAVS DESTROY SHAFT IN ARCHDUKE'S MEMORY

Sarajevo, Bosnia, July 10.—(By Mail)

"The Slavs have torn down the beautiful monument of granite and bronze which the Austrians erected to the memories of Archduke Franz Ferdinand and his wife Sophia, Duchess of Hohenberg, which stood at a corner of the bridge here when their assassination by Prinzip furnished the spark that set off the world-war. It bore a bronze plaque showing the figures of both Ferdinand and Sophia."

Now that Bosnia-Herzegovina has passed from the rule of Austria and become a part of the kingdom of Serbs, Croats and Slovenes, the parts of the monument have been stored in the Museum of Sarajevo. When the emperor has time they will be assembled for the edification of the students of history and to satisfy the curiosity of sight-seers.

Sarajevo seems almost to have forgotten the bomb throwing and is well on its way toward making "business as usual." As a demobilized soldier said: "We're all sick of the war business." But the mixed population and the undertone of sympathy for Austria lead one to wonder what may happen in the generation after that of Prinzip.

THE rather plebeian word "phonograph" does the Cheney a positive injustice. For the Cheney is truly a musical instrument, as superior in its way as the harp, violin and cello are in theirs. A series of remarkable inventions preserve harmonic balance and give to the Cheney tones remarkably pure and rich. These exclusive features are enclosed in period cabinets that rival the finest productions of old world furniture craftsmen.

PINCH HITTER IS LEAGUE LEADER

Eddie Murphy of White Sox Bats 476 In 21 Games—Still Tops Regulars.

Chicago, Aug. 23.—Eddie Murphy, the star pinch hitter of the Chicago White Sox, who had "delivered" with regularity in the past few weeks, is topping the American league batters with a mark of 476, according to averages released today. However he has participated in only 21 games. Harris of Cleveland in 28 games made an average of 403.

By Cobb of Detroit, is the real leader, more than 100 points behind Murphy. The Detroit star has been bugging safe blows consistently and has an average of .374 made in 90 games. Jacobson of St. Louis is the runner up to Cobb with .352.

George Slaughter, star of the St. Louis club, is showing the way to the base stealers with 25 thefts, but is being pushed by Johnston of Cleveland and Hooper of Boston who have pilfered 22 sacks each. In addition to being the leading base stealer Slaughter is in front in total bases with a mark of .210, which is better than that of "Babe" Ruth of Boston, the slugging home run king who has a string of 19 homers to his credit. Ruth lacked on three circuit drives in the past week.

Other leading American league batters for 40 or more games: Veach, Detroit, .352; St. Louis, .351; Peckinpaugh, New York, .339; Jackson, Cincinnati, .338; Heilmann, Detroit, .328; Fawcett, New York, .326; Flanagan, Detroit, .317; Rice, Washington, .315; Gaudin, Chicago, .314; Ruth, Boston, .313; Chapman, Cleveland, .312; Weaver, Chicago, .311; E. Collins, Chicago, .311.

Max Carey of Pittsburgh had a great week with the bat in the National league, and boosted his average over the .300 mark. Last week, the Pittsburgher was hitting at a .354 clip, and this week's averages show him to be batting .301, but Carey has played in only 31 games. Barber of Chicago, also has been doing some timely hitting and is in fourth place with a mark of .315.

"Garry" Gravath, the Philadelphia manager and leading home run hitter in the senior league, is topping the batters with 340. Jim Thorpe of Boston is next with 336 and Roush of Cincinnati is in third place with 330.

The tie for home run honors which he shared with Kauff, New York, last week by cracking out a pair of circuit drives. He has 11.

E. Wheat of Brooklyn, continued to lead in total bases with 175.

Catcher of Pittsburgh stole his 50th base during the week and is topping the base stealers.

Other leading hitters who participated in 40 or more National league games: Hornsby, St. Louis, .305; Stock, St. Louis, .308; McHenry, St. Louis, .306; Z. Wheat, Brooklyn, .305; Doyle, New York, .299; Luderus, Philadelphia, .299; Groh, Cincinnati, .298; Meusel, Philadelphia, .298.

There was little change of position among the batters of the American Association. Hendryx of Louisville, continued to top the list with .350 with 347. Good of Kansas City is third with .340. Miller of St. Paul batted a brace of circuit drives during the past week and tied Becker. Each has made 11 homers.

Bescher of Louisville is burning the paths with his speed and, with 41 pilfered sacks, is far in front in base stealing.

Other leading American Association batters for 40 or more games are: O'Mara, Indianapolis, .330; E. Miller, St. Paul, .321; Leary, Indianapolis, .320; Kirke, Louisville, .319; W. Miller, Kansas City, .317; Owens, Minneapolis, .314; Covington, Indianapolis, .313; Hyatt, Toledo, .312; George, Columbus, .303; Yerkes, Indianapolis, .301.

Joe Wilhoit, slugging outfielder of the Wichita club, who established a new world record by hitting safely in 69 consecutive games, is far in front among the Western league hitters with a mark of .455. Wilhoit, who was purchased by the Boston Red Sox, and who will join that team shortly, ended his batting streak Wednesday.

Taryan, Wichita, remains high man in the home run department with 12 and Hasbrook's mark of 27 stolen bases. Both the Des Moines player in front among the Western league batters.

Other leading batters for 40 or more games in the Western are: E. Walker, St. Joseph, .356; Speltman, Omaha, .352; East, Wichita, .352; Connelly, Des Moines, .326; Brokaw, Sioux City, .320; Collins, Joplin, .318; Hasbrook, Des Moines, .315; Russell, Joplin, .315; Berger, Wichita, .312; Moran, Sioux City, .312.

Gilbert, New Orleans, with an average of .355 is topping the batters of the Southern association. He is also leading in stolen bases with 27 and in total bases with 217. McDonald, Nashville, .331; Christy, Memphis, .320; Dunham, Birmingham, .317; Ben, Birmingham, .308; Benson, Birmingham, .308; Griffin, Atlanta, .303; Schepner, Mobile, .302; Grimm, Little Rock, .300.

JACKSON HAS HELD UP BATTING STRENGTH OF WHITE SOX OUTFIELD; AIDS DISAPPOINT

Joe Jackson and his lion.

Although the outfield of the Chicago White Sox averages up well in hitting, it has been a disappointment to the Chicago fans. Two years ago three members of it were traveling in the charmed circle. Joe Jackson, Eddie Murphy and Happy Felsch were hitting over .300. John Collins and Nemo Leibold were weak, but rested on the bench most of the time. This season it was hoped that the Sox gardeners would hit their old stride and do the lion's share in wrecking the hopes of the other A. L. clubs. Jackson is hitting harder than ever, but Felsch, Collins and Leibold have failed to strike a fast pace.

Pittsburgh, Aug. 23.—David Herron and Bobby Jones were all even at the 18th hole in their 36-hole match today for the amateur golf championship of the United States. They completed their round at 12:58, having been out two hours and 10 minutes.

Cards—Morning: Jones 456 345 454-40 38-78. Herron 545 375 354-43 36-79.

Pittsburgh, Aug. 23.—S. Davidson Herron led Bobby Jones by two holes in the final round of the national amateur golf championship today. Cards: Jones 456 345 454-40 38-78. Herron 545 375 354-43 36-79.

Pittsburgh, Aug. 23.—The final battle for the title of national amateur golf champion started this morning at the Oakmont country club course between Robert T. (Bobby) Jones of Atlanta and S. Davidson Herron of Pittsburgh. In the first round was a tense pitch owing to the state and to the extreme youth of 17-year-old Bobby Jones and that of his local opponent, who is but five years older. Herron is receiving the local backing, but even money has been placed on him. Jones and Herron won the right to compete for the championship yesterday when they defeated W. C. Brown of Pittsburgh, 5 and 3, and J. Wood Platt of Philadelphia, the conqueror of Francis Ouimet, Boston, 7 and 6 respectively.

**ENGLAND'S SERVANT
PROBLEM IMPROVES**
London, Aug. 30. (By Mail).—The do-
mestic service problem, according to the
ministry of labor, is gradually becom-
ing easier, and girls are showing more
inclination to return to household ser-
vice.
Further improvement is expected
when the domestic service training cen-
ters organized by the London County
Council are in full swing. One of these
centers was opened today in Hammer-
smith, and immediately all vacancies
for training were filled.
Training is free to all girls who are
receiving unemployment donations. Par-
ticulars are received special attention.
They are taught to wait on table and to
observe many little niceties of service,
such as not joining in the laughter
which follows a good joke by one of
the guests. The correct way of pass-
ing around vegetables and moving plates
silently also are parts of the curricu-
lum.

**GERMAN DOGS ARE
BROUGHT BY TROOPS**
Paris, July 28. (By Mail).—America
will be overrun with German police
dogs if the dogcatchers at the ports in
the United States where the returning
troops land do not put an embargo on
the German product.
All the soldiers and marines from the
Rhine districts bring police dogs to
Paris. Officers, doughboys and gen-
erals are all gray, about the size of a
shepherd dog with the pointed nose and
sharp erect ears of a wolf.
Iron manufacturers are urging the
government to use 300,000 tons of Swe-

driven out of their colony at Colonia
Morelos, 65 miles southeast of Douglas,
by Villa's army of invasion in 1916 are
endeavoring to recover their homes.

many is completely stopped, and Brit-
ish coal costs the equivalent of \$22.50

**MORE EVIDENCE OF
GREAT RELIEVING
POWERS OF DRECO**
Was Dizzy, Nervous, Back Was Lame,
Stomach Full of Gas, and Bowels
Constipated; Gets Unusual
Results.
Dreco does its curative work in a
simple, straight forward way. It wastes
little time getting all its energies to
work, feeding the tired, worn-out
nervous tract, filling the arteries with
rich, new blood, and building up the
body for its fight against disease.
Read what Mr. J. P. Armstrong, of
Cannellville, O., near Zanesville, says:
"For some time I have suffered with
nervous pains in my back and limbs,
especially the joints. It struck me
first in the hips, then the knees got
painful; then the shoulders and elbows.
My back gave me a great deal of
trouble, especially when I got up in the
morning, and also when I would make
a quick move or bend. I was also
troubled with constipation, headaches,
nervousness, so that I did not sleep
well, and my appetite was about all
gone. I was attracted by the state-
ments I read in the papers about what
Dreco had done for so many other peo-
ple, and decided to try it, with the re-
sult that by the time I had finished
the first bottle, my pains had left me,
and the stiffness was wearing away.
I can now jump right out of bed, with-
out the slightest pain at all; can stoop
about and climb stairs without any
trouble. The constipation is en-
tirely gone. I never have a headache
and my wife says I am about to eat
her out of house and home, since my
appetite has improved so.
"I feel perfectly well now, but my
wife insists that I keep it up, so I am
going to take another bottle, just to
make sure I'm well.
Statements like this from persons
right here in our home town should do
much to convince people of the true
merit of Dreco. This remedy does not
contain any mercury, potash, or other
harmful minerals, nor anything that
affects the heart, but is composed of
the juices of many different herbs, and
roots.
Mr. Powell, the well known Dreco
expert, has headquarters at Evans Cut
Rate drug store to meet the local pub-
lic and explain the merits of this great
remedy. See him today.—Adv't.
